14 July 1976

MEMORANDUM FOR: Associate Deputy Director for Administration

FROM : John N. McMahon
Associate Deputy to the DCI for the
Intelligence Community

SUBJECT : Space

Mike:

NTL In order to accommodate Mr. Knoche's request that [redacted] and his staff be moved closer to the environs of the DDCI's office, we are amenable to the move of our Support Staff from the 7E corridor to the 7C corridor.

We are prepared to give up Room 7E 33 and 7E 31, and half of 7E 29. There is a caveat, however, that goes with that. The IC Staff has been specifically denied access to the Xerox machine in the Executive Registry. The machine that we presently use is located in the Support Staff and there is no room in our remaining space for that machine. Hence, that, too, must go with the Support Staff to the 7C corridor which I think would place an undue burden on the IC Staff in the 7E corridor, making them go that far when a machine exists across the hall. Therefore, we request access to the Executive Registry unit.

STAT

Cheers,

STATINTL
